

I have the error message "The licence file was tampered with". What do I do?

The PATGuard Licence file is protected by the tamper protection system. The tamper message PATGuard is displaying is caused by user action (intentionally or inadvertently) which has caused the tamper protection to trigger.

1) Please select "Show Licence Information" on the tamper error message. This will open the Licence Viewer.

	Activation of PATGuard 2		×

[2eactivate Activation Key	Refresh Info Options	Qlose

2) Select the "Activation Key" button and enter the key below:

C59wm-JEk43-M8b60-3oQDu-odDhb-3l5TM

Tip: Use Copy and Paste, if possible, to ensure correct key entry

3) For network installations, please ensure that the program is run on each Workstation at least once within a day of entering the key in step 2.
